

REMARKS

In accordance with the foregoing, claim 13 has been amended and claim 14 has been cancelled. Claims 1-13 and 15-19 are pending and under consideration.

Using independent claim 1 as an example, this claim recites selecting a data source through which the logo image and/or sound is received. In contrast, Lee discloses a single path, and therefore, there is no selecting of the path. Specifically, Lee discloses that the user-defined logo is transmitted from the computer 16 to the projector body 11 via the input device 10. Lee, col. 2, ln. 40-42 and Fig. 3. According to Lee, this is the only path for transmitting the logo, and therefore, there is no selecting of a path, as claimed.

Claim 2 depends from claim 1 and recites selecting and deleting the stored video and/or audio data. In contrast, Lee discloses that the saving operation of the user-defined logo will overwrite the previous logo image data. Lee, col. 3, ln. 5-9. Thus, there is no selecting of the deleted logo. Instead, the previous logo is automatically deleted.

Shekel does not overcome these deficiencies in Lee, and is not relied on by the Examiner to do so.

Accordingly, withdrawal of the rejection is requested.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

Serial No. 10/043,273

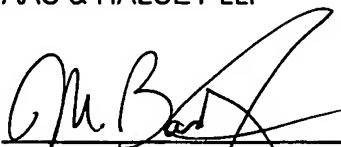

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
